## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12,13,15 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Phillips et al (US 6,019,072).

Phillips discloses the invention as claimed including a tool 1, housing 140, fuel cell 77, non circular regulator 82 with shuttle valve 61, adapted to be in fluid communication with the fuel cell and accommodated onto the housing, biased latch 76, biased by spring bracket 65, which is equipped with tangs for release of regulator from the fuel cell (see Fig. 7,9,18 and C4, L40-65).

### ***Allowable Subject Matter***

3. Claims 14 and 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 21 and 22 are allowed.

### ***Response to Arguments***

5. Applicant's arguments filed 3/4/03 have been fully considered but they are not persuasive.

Applicant argues that the reference of Phillips et al does not teach or suggest the use of an adapter in the power tool. As the Examiner interprets the invention of Phillips, there is provided a power tool with a housing and a fuel cell with an adapter in the form of the regulator that provides a connection between the fuel cell and the shuttle valve through the use of inlet 64. Furthermore as the examiner interprets the invention, the use of the latch releases the regulator adapter from the tool that contains the shuttle valve.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
